Twenty of the new steel coal cars have been received by the White Oaks route from the American Car and Foundry company of St. Louis. These cars are entirely of steel and have a capacity of 80,000 pounds. There are fifty more to be received.

Bud Smith, the well known cattleman, met with a painful accident Monday while returning home from Tularosa. A short distance north of that place his horse fell with him and bruised him so severely that he was forced to return to Tularosa and secure the services of a physician.

A firm of Chicago engineers were recently asked what was the proper elevation and spread of rails for a 30 degree curve. Their reply was that they could not furnish the information, and that the only man in the United States who did know was H. A. Sumner, chief engineer of the White Oaks route.—El Capitan.

Lieutenant M. J. Mender, just returned from the Philippines, in conversation with a Journal-Democrat reporter, said that George Curry, formerly sheriff of this county, was recently raised to the first lieutenantcy by reason of his bravery on the field. He also says that Curry is interested in several good mining claims on the islands and that he is anxious to resign to go into the mining business.

Gov. Otero has pardoned William M. Hightower, of Lincoln county, on the recommendation of the prosecuting attorney, the grand jury which indicted him, the petit jury which convicted him and upon the petition of nearly every man, woman and child in Lincoln county. Hightower in 1897 was sentenced to eighteen years in the penitentiary for killing a man in a quarrel resulting from an attempt of the victim to jump Hightower's claim.

H. R. Wood, of El Paso, and C. H. Langdran, of Dallas, adjusters for the fire insurance companies interested in the Meehan & Co. loss, have been in

#### Visited Cloudercroft.

Mrs. Theodore Johnson, who returned last week from a trip to the mountains gives an enthusiastic account of her visit to the mountain resort, Cloudercroft, with a number of friends. Tillotson; Mr. and Mrs. J. F. Hinkle and Mrs. Hinkle's mother, Mrs. Roberts. They spent several days there and were shown a great many courtesies. There were 300 guests at the place who amused themselves in a continual round of gay pleasures,—golf, tennis, balls, etc. The scenery is superb and is alone well worth the trip to see, the altitude being 9000.—Roswell Register.

It isn't the material that goes into your repaired watch that results in a perfect job—it is the KNOW-HOW that does the business. Any bungler can buy the fine kinds of material that I use in repairing; but SKILL is the most valuable material that can be used in watch-repairing; and the bungler can't buy IT. I sell my skill for what it is worth, and it will cost you less than bungling at a lower price.
